Enablers

Mentoring

Our students are supported by a range of mentoring options from first-year to postgraduate study and beyond.

Community engagements

- Schools' program
- Interview panels – including community members in Rural Entry Scheme student interviews.
- Local council programs and scholarships
- Oversight Council model
- Engaging community members to provide simulated experiences for our students

Providing opportunities and supporting students to experience regional and rural medical practice.

Collaboration

Single employer model
Port Macquarie Health Precinct – Shared Health Research Centre

This is what it is all about...

A career in rural medicine offers opportunities and experiences not available within urban areas.
