Block versus longitudinal integrated clerkships: students' views of rural clinical supervision

Martin Witney,¹ Vivian Isaac,² Denese Playford,³ Leesa Walker,¹ David Garne⁴ & Lucie Walters¹ 

CONTEXT Medical students undertaking longitudinal integrated clerkships (LICs) train in multiple disciplines concurrently, compared with students in block rotations who typically address one medical discipline at a time. Current research suggests that

clinical supervisors and how they rate their own clinical competence.

RESULTS Multivariate generalised linear modelling showed no association between placement type (LIC versus E

FEDERATION OF RURAL AUSTRALIAN MEDICAL EDUCATORS

Current projects

Perceived burnout among Australian medical students undertaking a rural clinical placement

- Working group Vivian Isaac, Craig McLachlan, Jennene Greenhill, Lucie Walters (2017 data)
- Submitted to BMJ open

Features that attract graduates to rural locations

- Working group Ritta Partanen (UQ) and Elena Rudnik (FU)
- 2017 data sent

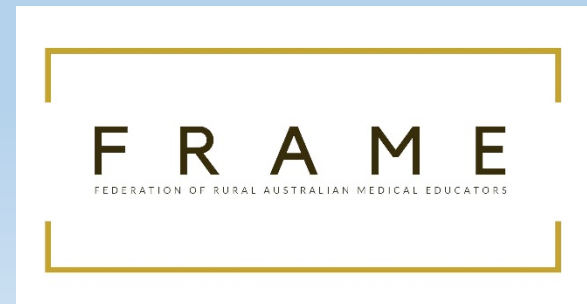

Recent projects

What are the attributes of RCS students with an interest in small rural practice (<25,000)?

- Medical student project Dylan Rafferty; Working group includes: Vivian Isaac, Lucie Walters, Denese Playford
- PeArLs presentation at Muster

Wellbeing activities provided by RCS

- Questions introduced by Vivian Isaac and Lucie Walters in 2018 survey

Recent projects

Cultural safety of RCS students

- Questions introduced by Elsa Barton in 2018 survey

Are intentions and factors associated with rural intention different between male and female RCS students?

- Medical student project supervised by Denese Playford
- 2015-2017 data supplied.

2018 plans

Survey leadership and management:

- In view of the two year RHMT contract, Sharon Liu and I would like to remain the custodians of the FRAME Survey please

New timelines:

- New questions considered from April to October 30 LAST CHANCE NOW
- Ethics Modification Application planned for in November 2018
- New surveys printed in March 2019
- 2019/20 survey distributed from 1st July 2019 to 30th June 2020
- Schools provided reports in February (as previously) or October
