JMO pathways 1->2->3

Rural hubs are working?

Evidence/examples?

Positive rural years

Lifestyle, prof dvpt, research, med.ed

Supported rural leaders/ educators

College selection (rural points)

RACGP/ACRRM “rural”

**RG model, co-badged diplomas\***

\* Anaesthesia, RANZCOG, ACEM

Attitudes, Rural College programs

RACS, RACP, RANZCP

## The Tortuous Pipeline-Solutions?

# Longitudinal student placements – 2years and more

# Hubs. Build strong local postgraduate training that reinforces the values of the workforce. Decentralisation of training. Work with the Colleges.( e.g. Murrumbidgee model for GP Registrars )

# Modernise the regional/rural workforce. Look at innovative solutions involving shared appointments, salaried posts, fellowship positions and creating clusters

# Streamline Federal and State funding arrangements.
